1. In June 1949, the construction was started of a building and underground corridors for a UDB ammunition dump located northwest of Gumniste near Skofelca. The building, a three-story reinforced concrete construction, 13 by 30 meters, with a flat roof which will be covered by vegetation, is 30 meters below the summit of a hill. A vault, five meters deep, will be built in the section of the building marked "A" on the attached map. Three corridors of unspecified dimensions lie beneath the hill directly behind the building; special chambers are being built within these corridors. Each corridor gate measures three by four meters.
2. Approximately 120 political prisoners are engaged in this project, under the supervision of Italian experts who volunteered for this type of work in Yugoslavia. Workers are guarded by 11 militiamen and are billeted in a special camp at the foot of the hill. Stefan Skrlak, a native of Styria, Austria, has been elected camp leader of the prisoners.
